## PROFILE

---

Dedicated and results-oriented professional with 1 year of experience in VMware and Cloud Domain, skilled in Administration tasks, with a proven track record of delivering high-quality solutions, driving process improvements, and contributing to organizational growth through innovation, collaboration, and a strong commitment to excellence.

## EDUCATION

---

<b>St Andrew's College of Arts,Science and Commerce</b> <i>Bachelor of Science in Information Technology, CGPI : 9.68</i>	Bandra, Mumbai <i>June 2022 - 2025</i>
<b>St Andrew's College of Arts,Science and Commerce</b> <i>HSC Science : 77.33</i>	Bandra, Mumbai <i>June 2021 - 2022</i>
<b>St Louis High School</b> <i>SSC : 90.80</i>	Dahisar, Mumbai <i>March 2019 - 2020</i>

## EXPERIENCE

---

<b>VMware Administrator</b> <i>Godrej Infotech Ltd</i>	Apr 2025 – Feb 2026 <i>Vikhroli, Mumbai</i>
<ul style="list-style-type: none"><li>Optimized virtual infrastructure resources using RVTools and SolarWinds insights, identifying underutilized workloads and saving ~4,00,000rs within five months</li><li>Developed automation scripts for daily operations, including snapshot validation, power-off audits, and VM inventory management.</li><li>Performed ESXi host upgrades along with firmware and BIOS updates to ensure stability, security, and compliance.</li></ul>	
<b>Cloud Administrator</b> <i>Godrej Infotech Ltd</i>	Apr 2025 – Feb 2026 <i>Vikhroli, Mumbai</i>
<ul style="list-style-type: none"><li>Provisioned and deprovisioned EC2 instances and Azure VMs based on approved speedflows, ensuring compliance with organizational standards.</li><li>Created and maintained AMI snapshots for backup, recovery, and environment cloning purposes.</li><li>Managed cloud inventory across 30+ AWS accounts, ensuring accurate tagging, cost visibility, and governance.</li><li>Designed automated Teams workflows that ingest CloudWatch email alerts, parse EC2 lifecycle events, and auto-categorize high-severity actions (e.g., EC2 create/delete) for rapid escalation.</li></ul>	

## PROJECTS

---

<b>Secure Office Environment   AWS</b>	Feb 2026
<ul style="list-style-type: none"><li>Designed and implemented a secure, multi-tier AWS architecture using VPC, public/private subnets, and VPC peering.</li><li>Built a scalable web tier using Application Load Balancer and Auto Scaling Group with EC2 instances in private subnets.</li><li>Applied AWS best practices for network isolation, security, and high availability..</li><li>Implemented secure access and automation using IAM, Systems Manager (SSM), Lambda, and scheduled backups.</li></ul>	

## TECHNICAL SKILLS

---

**Amazon Web Services (AWS):** VPC, EC2, ALB, Auto Scaling, S3, CloudFront, IAM, Lambda, EventBridge, Systems Manager (SSM), CloudWatch  
**VMware vSphere:** ESXi, vCenter Server, Virtual Machines  
**Developer Tools:** Git, VS Code, Jupyter

## CERTIFICATES

---

**AWS Cloud Quest : Cloud Practitioner**  
**Figma Essential for UI/UX:** Udemy  
**Introduction to Cybersecurity:** Cisco  
**Fundamentals of Full Stack Development:** ExcelR
